## What type of restraint do you require?

### Toddler Seat

Children aged between six months and four years (8-18kg) must travel in an approved Toddler Seat (forward facing child restraint with an in-built harness). An anchor point is required for these seats. Toddler Seats cannot be fitted to the front passenger seat of any of our vehicles.

### Child Seat

Children aged between four and seven years (14-26kg) must travel in an approved Child Seat (booster seat fastened with a standard diagonal sash seatbelt). Whilst it is legal (under certain circumstances) for a child in this category to sit in the front seat, Cruisin Motorhomes does not recommend any child under seven years (under 26kg) travels in the front passenger seat.

\* Children must be aged over 6 month to travel in our vehicles.

## Hire a Toddler / Child Seat or bring your own

- Toddler and Child seats can be hired from all Cruisin Motorhome branches for AU\$35 per hire. Toddler and Child seats are included in the Maximum Cover Package

- Toddler and Child seats brought from overseas do not comply with the Australian and New Zealand standards. It is illegal to use them in Australia
- It is the responsibility of customers to fit the seats in the vehicle

## Where can children sit?

- Front passenger seats and rear facing passenger seats in all vehicles are not fitted with anchor points and cannot accommodate children under four years in any case
- If all appropriate rear seats are being used by children under seven years or the vehicle is not fitted with rear seats. Children aged between four and seven may travel in the front passenger seat, provided they use an approved child seat. Cruisin Motorhomes does not recommend any child under seven years travels in the front passenger seat.

For more information on where your child can sit in our vehicles please see the guide below.

The dining table must be packed away when driving.
