

CHILD & BOOSTER SEAT GUIDE

EFFECTIVE FROM 01 APRIL 2024 ONWARDS

Child Seat

Children aged between 6 months and 4 years (8-18kg) must travel in an approved child seat (forward facing child restraint with an in-built harness). An anchor point is required for these seats. Child seats cannot be fitted to the front passenger seat of any of our vehicles.

Booster Seat

Children aged between 4 and 7 years old (14-26kg) must travel in an approved booster seat with an in built harness or an approved booster seat that is properly positioned and fastened with a standard lap-sash seatbelt. A booster seat cannot be fitted to the front passenger seat of any of our vehicles.

Baby Seat

Cruisin' does not supply baby seats to children under 6 months of age. Customers who wish to travel with children under 6 months of age must provide their own. This seat must comply with current Australian standards and must be labelled with an Australian Standards sticker. An anchor point is required for these seats. Baby seats cannot be fitted to the front passenger seat of any of our vehicles.

Hire A Booster/Child Seat Or Bring Your Own

Booster and child seats can be hired from all Cruisin' Motorhome branches for AU\$35 per hire. Booster and child seats are included in the Maximum Cover Package.

Booster and child seats brought from overseas do not comply with the Australian standards. It is illegal to use them in Australia.

It is the responsibility of customers to fit the seats in the vehicle.

Where Can Children Sit?

A child or booster seat can only be fitted on a forward-facing passenger seat in the rear of the vehicle.

The pages below outline which vehicles can have a child or booster seat fitted and where it can go in each model.

Child or booster seats are not permitted on any rear facing seats in the vehicle.

A maximum of two seats can be fitted to a vehicle.

SEE BELOW FOR PLACEMENT GUIDE

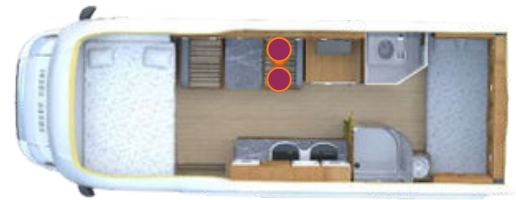

THE DINING TABLE MUST BE PACKED AWAY WHEN DRIVING
